Projects

CRM- CRM system developed for Bqe client. It included managing the leads, prospects, opportunities, proposals, projects, budgets, Time Tracking and much more.

LSM - Legal Spend Management is one of the key solutions provided by Bottomline Technologies to help their customers manage the spends on their claims. The solution mainly focused on establishing collaboration between customers and vendors managed by a set of administrators and support teams. It served three different portals, one for each type of user to perform respective activities. Collectively these portals offer a complete lifecycle for a claim including budgeting, invoicing, documentation and much more.
