## OBJECTIVE

A challenging Career which offers an opportunity to apply my skills knowledge with continuous learning and Technologies.

## PROFESSIONAL EXPERIENCE

- Skilled in C#, Asp.net, SQL, ADO.net, HTML and CSS. Good understanding of software Algorithms and Design etc. for accurate verification. Possesses exceptional skills in effective problem solving through critical thinking and continuously aims to increase knowledge and individual productivity.
- experience of .Net Technology that includes C#, WEB API, ASP.Net, MS SQL Server.
- Excellent analytical skills with Proficiency in debugging and Problem Solving.
- Good working knowledge of HTML, CSS.
- Extensive Object-Oriented Programming and Development skills.
- Experience in designing and implementation web applications using Asp.Net, C# client-Extensive knowledge of Client/Server and Web based applications using Asp.Net, C#.

## TECHNICAL SKILLS

- .NET Technologies: C#, WEB API, NETCORE,
- Operating System: Windows Family
- Programming languages: C, C#, .NET.
- Markup & Scripting: HTML, CSS.
- Database: SQL Server, MySQL.

## Work History

### • **Gift Plus India Software Engineer (06/07/22 - Present)**

- Developed Loyalty Marketplace Api's using Api first approach.
- Deployment on various Azure and AWS Services.
- Worked on performance optimization by scaling API and databases.

-Was part of the implementation team responsible for designing and developing custom integration solutions to connect our company's systems with Virto Commerce (headless ecommerce platform) using APIs and other integration methods. Implement data synchronization processes to ensure seamless data exchange between our internal systems, Virto Commerce platform and the supplier inventories. Troubleshoot and resolve integration issues, ensuring the stability and performance of the integrated systems. Create and maintain technical documentation, including integration specifications, process flow diagrams. Collaborate with Virto Commerce technical support and development teams for issue resolution and platform enhancements.

### • **Internship- Dot Net Developer at SSP Technology - Pune (21/12/21 - 10/06/22)Project: - DROPS**

**Project description:** Outsourcing data to a third-party administrative control, as is done in cloud computing, gives rise to security concerns. The data compromise may occur due to attacks by other users and nodes within the cloud. Therefore, high security measures are required to protect data within the cloud. However, the employed security strategy must also consider the optimization of the data retrieval time. In this paper, we propose Division and Replication of Data in the Cloud for Optimal Performance and Security (DROPS) that collectively approaches the security and performance issues.

#### **Role and Responsibilities: -**

- write code for computer programs and mobile applications.
- They are also involved in maintaining, debugging, and troubleshooting systems and software to ensure that everything is running smoothly.

## Education

- SSC, JNV WARUD,2014
- HSC, SSVPS DHULE ,2016
- MCA, Computers,2022 PG institute of management and research development, Shirpur
- BSc, Computers,2019 UG North Maharashtra University, Jalgaon

## Language

- English
- Hindi
- Marathi

## Interests

- Web Surfing
- Learning New Technology
- Problem Solving

## Personal Details

- Date Of Birth: - 19/04/1997
- Marital Status: - Single
- Nationality: - Indian
