## CAREER SUMMARY

.NET Developer with 2 years and 8 months of experience in developing Web, Batch, Windows Applications, and business solutions using **C#** and frameworks like **ASP.NET, C#.NET, .NET Core, .NET MVC, Angular, jQuery, Entity Framework, Microsoft SQL Server, Oracle, and SSRS**. Expertise in requirement analysis, design, development, enhancement, testing, maintenance, and production support of business applications, prioritizing meeting deadlines and delivering high-quality outcomes. Proficient in **Agile Project Management**, software development principles and practices, design patterns, and **SOLID principles**.

## SKILLS

**PROGRAMMING LANGUAGES** | C#, SQL, TypeScript, Java (Basics).

**FRAMEWORK & LIBRARIES** | .NET Framework, Entity Framework, NHibernate, LINQ, jQuery, Angular.

**TECHNOLOGIES** | WCF, WPF, ASP.NET MVC, ASP.NET Core, .NET Web API.

**DATABASES** | Microsoft SQL Server, Oracle, Firebase Realtime Database.

**TOOLS** | Visual Studio, SQL Management Studio, Git, Android Studio, Postman, Fiddler.

**REPORTING** | SSRS (SQL Server Reporting Services).

**SOFT SKILLS** | Bias for action, Team player, Deliver results.

## EXPERIENCE

**Capgemini** – Airoli, Navi Mumbai

**Senior Software Engineer | Dec 2021 - Present**

- Led major development initiatives and enhancements for clients to improve business operations.
- **Refactored** and **Optimized** code to improve performance by 20%.
- Developed user interfaces using **WPF** (Windows Presentation Foundation) with the **MVVM** (Model-View-ViewModel) architectural pattern and **WCF** (Windows Communication Foundation).
- Utilized **NHibernate** as an **ORM** (Object-Relational Mapping) with an **Oracle** database for backend development.
- Integrated **batch files** and managed **long-running processes** using Agile development methodology.
- Developed and maintained web-based applications using **ASP.NET MVC** and **Web API**.
- Developed robust Web API to build and maintain **RESTful services** for seamless frontend-backend communication.
- Utilized **Entity Framework** and **LINQ** queries for **ORM** to interact with **SQL Server**.

- Used **.NET Core Web API** and **Microsoft Azure** to publish and manage **Web APIs**.
- Tested APIs using **Postman** and **Swagger**, ensuring functionality and adherence to specifications.
- Developed and maintained **SSRS (SQL Server Reporting Services)** reports for various business needs.
- Deployed code in Azure using **CI/CD pipelines** for seamless integration and delivery.
- Worked on **Angular** to develop dynamic and responsive web applications

## OTHER PROJECTS

### GST Management

- Led the design and implementation of a GST management **ASP.NET MVC** application, enhancing financial operations with features for easy **Excel file integration**, enabling users to seamlessly upload Excel files and generate detailed reports in Excel format.
- Developed a scalable, secure **Azure cloud infrastructure**, including **Azure Web App** for hosting and **Azure SQL Database** for robust data management, emphasizing data integrity and security.
- Successfully deployed the application on Azure, ensuring high availability, optimal performance, and secure access for GST management.

## EDUCATION

Universal College of Engineering | Poman, Maharashtra – May 2021

Bachelor of Engineering in Information Technology

## COURSEWORK

- Microsoft Azure Fundamentals - AZ 900
- Communication Strategies for the Virtual Age
- Successful Presentation
- Understanding Cyber Security Essentials
