**IDEs** - Spring tool suite, IntelliJ IDEA, Eclipse

## Experience

---

**Systems Engineer| Infosys, Nagpur**

**March 2022 - Present**

- 2 year + Experience as an Spring Boot Developer.
- Developed and maintained scalable and robust web applications using Java and Spring Boot framework.
- Designed and implemented RESTful APIs for seamless integration with frontend applications.
- Created and optimized database schemas, wrote efficient SQL queries, and ensured data integrity.
- Implemented caching mechanisms using Spring Cache to improve application performance.
- Implemented security features such as authentication and authorization using Spring Security.
- Collaborated with the QA team to identify and resolve bugs and issues.
- Experience working with IDP(Infosys Devops Platform) used for creating pipeline and release activity.
- Managing all the release activity of PBS(project budgeting system) project.
- Proficiency in Spring Boot ,Spring MVC, Hibernate.
- Experience working with Store Procedure.
- Experience working with MSSQL.

## PROJECT

---

### PROJECT BUDGETING SYSTEM(INFOSYS)

- The project budgeting System can be said to be a Budgeting & Reporting tool.
- It is help to keep a track of the Budgeted and Expenses of project.
- It helps PM/DM to organize and control financial aspects ,set and realize goals and decide in advance as to how the project will shape up in terms of Billing and expenses.
- Before it was on .net technology which is very slow due to complex business logic and large data.
- It is now integrated in Spring Boot which is much faster then .net.
- I am currently working on all the major spring boot requirements , deployment requirements of spring boot services and database requirements in PBS.

## EDUCATION

---

**Yeshwantrao Chavan College of Engineering**

B.Tech - Mechanical Engineering - CGPA - 7.5

**2021 Passout**

Nagpur, Maharaashtra
