## Professional Summary

**Certified Azure Data Engineer** with 4.7+ Years in Cloud Data Engineering & Big Data Technologies | Expertise in ETL/ELT, Data Transformation, and Optimization | Seeking Growth in Big Data Engineering.

## Core Competencies

**Programming Languages:** Python (basics), SQL

**Cloud Platforms:** Azure (ADF, Blob, ADLS Gen2, Databricks, Synapse, Active Directory, Key Vault), AWS (EC2, S3)

**Hadoop Ecosystem:** MapReduce, HDFS, Hive, Spark, PySpark

**RDBMS/NoSQL:** SQL Server, PostgreSQL

**Tools:** Git-GitHub, Jupyter Notebook, Pycharm

## Certifications

- **Microsoft Certified: Azure Data Engineer Associate certification (DP-203)**
- **Databricks Certified Associate Developer for Apache Spark 3.0 - Python**
- **Microsoft Certified: Azure Fundamentals certification (AZ-900)**
- **AWS Cloud Practitioner**
- **Introduction to Big Data with Spark and Hadoop (Coursera)**
- **Databases and SQL for Data Science and Python (Coursera)**

## Professional Experience

### **Credit Suisse (Part of UBS Group)**

**Role:** ENO | Data Engineer

**Duration:** October 2022 – Present

- Utilized SQL and PySpark to manipulate and transform data for analytics and reporting.
- Managed data analytics and storage using Databricks and ADLS, including data ingestion/loading to ADLS.
- Developed datasets for analysis by cleaning and transforming raw data in PySpark.
- Leveraged Delta Lake architecture with bronze, silver, and gold layers to enhance data processing and analytics.
- Conducted data migration from on-premises to cloud using Azure Data Factory, improving efficiency and scalability.

## **Techbion Software Systems**

### **Role: Associate Engineer**

Duration: Oct 2019 – April 2022

- Validated data consistency and integrity on Databricks, supporting large datasets.
- Verified Tableau dashboard accuracy, layout consistency, and visualization correctness for optimized user experience.
- Collaborated in Agile environment, refining testing requirements for Tableau and Databricks.
- Developed test cases for Apache Airflow data pipelines, ensuring data ingestion, ETL, and transformation accuracy.

## **Education**

- M.Tech - Gold Medalist – Dr. BAT University
  - Bachelor of Engineering - Dr. BAM University
-
