### **Project Description: HRMS**

Supporting the development and implementation of HR initiatives and systems. Providing counseling on policies and procedures. Being actively involved in recruitment by preparing job descriptions, posting ads and managing the hiring process.

#### **Responsibilities:**

Ensures accurate and timely processing of payroll updates including new hires, terminations, and changes to pay rates. Prepares and maintains accurate records and reports of payroll transactions. Ensures compliance with federal, state, and local payroll, wage, and hour laws and best practices.

### **Project Description: WS Mart**

This system is implemented for 7 supermarket stores placed in the locality in Dubai which are multinational branded stores having retail outlet chains. The system provides a facility to accept the orders 24\*7 and a home delivery system which can make customers happy.

Stores are providing an online portal where their customers can enjoy easy shopping from anywhere, the shops won't be losing any more customers to the trending online shops.

The functionality of the project has been divided into different modules. The core modules of the system are User Management, Cart Checkout/Place an Order, Returns an Order, localization support (to display price), Third party integration for payment, product upload/ updates Management, Enabling or Disabling a particular functionality etc.

This is responsive website designed using bootstrap 5.

The administrator is the super user of this application. Only admin have access into admin pages. Admin will be the owner of the store. The administrator has all the information about all the users, moderators, products, orders, etc.

#### **• Roles & Responsibilities:-**

- I worked as a full stack developer for project
- My responsibilities to implement functionalities given as per requirements
- Attending daily stand up meetings
