

To utilize my technical skills for achieving the target and developing the best performance in the organization. I would like to implement my innovative ideas, skills and creativity for accomplishing the projects.

PROFESSIONAL SUMMARY

- **Past 2.5 years** of experience in IT, specializing in Software Development.
- Experience in working with technologies as **Core Java, spring (IOC, MVC), Spring Boot, spring Data JPA, Hibernate**.
- Having experience working with database technologies like **MySQL** Work on experience in using **Apache Tomcat server**.
- Knowledge of software Configuration Management tools as GitHub.
- Project developed under the Agile Methodology following the daily paradigm to track the progress.
- Knowledge In **Microservices , Git, Apache Kafka, Angular12**.
- Excellent interpersonal skills, Team player, Adaptable
- Good time management skills.
- Willing to learn and work in new and evolving technologies and accept challenges.

TECHNICAL EXPERTISE

- **Languages/Technologies** - Java 8, RESTful Web services, MicroService.
- **Frameworks** - Spring, SpringBoot, Data-JPA, Hibernate, Collection
- **Database** - MySQL
- **Development Tools** - Eclipse, STS, Visual Studio Code.
- **Web Technologies** - Angular, Html, CSS, Javascript, BootStrap 5
- **Other** - Maven, Postman, GitHub

PROFESSIONAL EXPERIENCE

WebCoreStone Software Pvt. Ltd

Sept 2021 - Present

Software Developer,

- **Project Title** : Sigma Health Care Service
- **Role** : Developer
- **Environment** : Windows
- **Technologies** : Spring, Spring Boot, Spring Data JPA, MySQL, RESTful Web Services
- **Database** : MySql

Description : Sigma Health Care or Health Insurance is similar to general insurance. As you know, in any insurance, the insurer (Insurance company) will provide the plans and the customer (Subscriber or Policyholder) will buy the policy of his desired plan. The insurer will receive the premium amount from the policyholders and the policy Holders will get reimbursements from the insurer for the valid claims they have submitted.

Roles and Responsibility :

- Involved in collecting requirement from Business Analyst
- Developed the POJO's, and DTO's for the request and response.
- Writing controller, Services and Repository layer java classes in spring boot.
- Analyzing and designing the code development documents and send it with deployment request.
- Implementation of POJO's, DTO's and controller to Repository level classes and interfaces for interaction between request and responses.

- **Project Title** : Small and Medium Enterprises Loan
- **Role** : Developer
- **Environment** : Windows
- **Technologies** :Spring Boot, Spring Data JPA, MySQL, Maven, RESTful Web Services
- **Database** : MySql

Description : Engineered SME Loans are given to entrepreneurs, either aspiring to set up a new business or modify and expand a current establishment. SME loans can be availed even for technological up gradation of a particular process. Some businesspersons would like to avail an SME loan to upgrade their manufacturing unit to adapt greener energy alternatives. These are some of the purposes for availing an SME Loan.

Roles and Responsibility :

- Writing controller, Services and Dao layer java classes in Springboot
- Developing the Repositories for accessing the Database.
