## EDUCATION:-

**University of Mumbai:-** Bachelors of Engineering – Computer Engineering

**June 2018 – June 2022**

**My Website Portfolio:-** [Portfolio](#)

**CGPA: 8.58/10.00**

## WORK EXPERIENCE:-

**Mitsubishi UFJ Financial Group (MUFG), Mumbai**

**July 2022 – Present**

Associate Software Developer

- Member Centre: It is an online platform that allows members to register, update their personal information, rollover their superannuation, rollover their insurance, get advice, and access accounts, among other features.
- Employer Access: It is a portal that allows employers to register using Okta. Employer authenticates themselves into the portal after registering with Okta. The employer can create several employees. Employers manage workers linked to their business.
- Effectively handled and resolved JIRA tickets, ensuring the smooth development of C#, ASP.NET MVC, ASP.NET CORE & React JS.
- Proficient in React.JS with hands-on experience in widget creation and website rebranding as per the client's requirement.
- Contributed to code coverage, developed unit testing, and generated Sonar reports to enhance code quality.
- Expertise in Dotnet CORE, implemented Swagger API endpoints and maintained WSDL (Web Services Description Language).
- Developed dynamic web applications with React JS by integrating Firebase for data management of internal workplace projects.
- Proficient in deployment processes and experience with CI/CD pipelines using Azure DevOps & Octopus DevOps.
- Focused on JWT token-based authentication to secure endpoints in Dotnet API projects.
- Utilized Identity Server and OKTA for secure authentication and authorization processes.

**Taruna Infosoft, Mumbai**

**Jan 2021 – June 2022**

Full Stack Developer Intern

- Developed a CA Portal project that provides customizable website templates for CA, CS, lawyers, and tax consultants.
- Implemented a complete e-commerce platform with user authentication, shopping cart, secure checkout, and product listings.
- Utilized technologies such as HTML, CSS, JavaScript, and Bootstrap for the front end, and PHP, and MySQL for the back end.
- Implemented secure payment processing using Razorpay, and Paytm allowing clients to transact easily.
- Gained practical expertise in deploying applications on cPanel, contributing to efficient web hosting and management.

## ACADEMIC PROJECTS:- [GitHub](#)

### Remote File Transmission System:-

- The latest way of remotely sharing the files is just by scanning the QR code to gain access to it.
- A QR code will be sent over Gmail or WhatsApp, allowing the recipient to access our file by scanning it.
- OTP will be sent to the registered email addresses of those who have requested access to the file for security purposes.
- Research paper was submitted and accepted at the International Journal of Scientific & Engineering Research (IJSER).
- This project would benefit the corporate and educational sectors in our society.

### Social Media Platform:-

- Created a responsive and dynamic website demonstrating expertise with React.js and Firebase.
- Made use of Firebase for backend functionalities, ensuring efficient data storage.
- Implemented interactive user interface elements to improve the user experience.
- Integrated real-time data updates, providing consumers with current information.

### CRM:-

- Developed and implemented a custom CRM project for a client, enhancing their customer relationship management capabilities.
- Developed and implemented email automation tools and databases for capturing, storing, and analyzing customer interactions.
- CRM is used for internal usage, benefiting the accounts department, HR, sales, and associate partners.

## TECHNICAL SKILLS:-

- Programming Languages: HTML, CSS, Bootstrap, PHP, JavaScript, SQL, C#, React JS, C, Java, Python,
- Developer Tools: Postman, VS Code, MSSMS, Oracle SQL, JIRA, Visual Studio, Fiddler, SOAP UI, GitLab, GIT, JWT.
- Technologies/Frameworks: ASP.NET MVC, ASP.NET CORE, ASP.NET WEB API, WCF, Docker, Angular, Firebase, Azure DevOps, Octopus DevOps., Stored Procedure, jQuery, OOPS, Rest API, XML, Agile Methodologies, Unit Testing, Microservices Architectures, Design Pattern.

## EXTRACURRICULAR INVOLVEMENT:-

- Assisted the university professor in preparing and conducting seminars, quizzes, and assignments.
- Volunteered as an English teacher for underprivileged children at Dixit School (for the Ichchha Foundation).
