NAME: PRIYANKA SHRIKANT KADAM   **ETL TALEND DEVELOPER**

Phone: +91 8446128656   **Email Id : priyankakadam9531@gmail.com**

Experience Summary:

- Overall 4+ years of work experience in IT and 3+ years of career reflecting experience in **Talend ETL Developer.**

- Experience in creating documents like design documents, test scenarios, test case documents, review check lists and test reports.

- Experience in ETL methodology for performing data migration, Extraction, Transformation and Loading from Talend from wide variety of source systems like Oracle and non- relational sources like flat files.

- Knowledge in **Talend, ETL, DWH, TAC (Talend Administration Centre), Oracle, MySQL, SQL Server, AWS S3, Snowflake** and **Unix, Linux** commands.

- Translated business requirements into Talend Jobs.

- Experience in development of technical design documents and Build job in Talend.

- Worked on design and implementation of ETL processes using Talend.

- Designed various jobs for extracting data from various sources involving flat files and relational tables

- Worked with the Data Team to understand the source to target mapping rules.

- Analyzed the requirements and framed the business logic for the ETL process using Talend and involved in the Talend jobs design and its Development

- Developed jobs using Talend for data loading, importing Source/Target tables from the respective databases and flat files

- Created complex mappings in Talend using components like**:** tMap, tJoin, tReplicate, tAggregateRow, tDie, tUnique, tFlowToIterate, tSort, tFilterRow, tWarn, tContextLoad, tFilterColumns, tSortRow, tAggregateRow, tUniqRow, tUnite, tReplicate, tReplace, tConvertType, tNormalize, tDenormalize, tRowGenerator, tPrejob, tPostjob, tSendMail, tLogRow and tSchemaComplianceCheck, tparallize.

- Worked on Talend ETL and used features such as Context variables.

- Worked on Context variables and defined contexts for database connections, file paths for easily migrating to different environments in a project.

- Used Talend Admin Console Job conductor to schedule ETL Jobs on daily, weekly, monthly and yearly basis (Cron Trigger)

- Good in learning quickly, problem-solving, communication skills, ability to work cooperatively in a team and as an individual.

Courses / Certifications:

Hands On Essentials - Data Applications   05/2023

Snowflake
Hands On Essentials - Data Warehouses   05/2023

Snowflake

Education Summary:

- **Bachelor of Engineering in Electronics and Telecommunication with 70.06%** from Solapur University, Maharashtra.

Professional Summary:

- Currently working as a **ETL Talend Developer** at client side **SMFG India Credit Ltd** from April 2023 to Current.

Technical Skills:

ETL Tools	:	Talend
Database	:	Oracle, SQL Server, MySQL
Operating Platforms	:	Windows , Linux
Scheduling Tool	:	Talend Administration Centre (TAC)
Cloud Technologies	:	Snowflake, AWS (S3)

Work History:

ETL TALEND DEVELOPER   **04/2023 to Current**
  Nityo Infotech | Mumbai, MH

- Developed ETL jobs to extract data from multiple sources such as Oracle, MySQL, SQL Server and flat files using Talend Studio.
- Monitored the execution of scheduled jobs on a daily basis and troubleshoot any issues encountered during run time.
- Coordinated with business users to understand requirements related to data extraction, transformation and loading process. Generated technical documentation detailing design specifications and other relevant information about implemented solutions.
- Resolved system issues related to data quality problems like duplicates, invalid values or missing fields.
- Implemented SCD Type 1 and SCD Type 2 methodologies to keep historical data in data warehouse.
- Extract the data from different external sources, transforming data and creating target files.
- Design jobs for extracting, transforming, loading data to target using Talend Designer Workspace.
- Worked on Joblets (reusable code) & Java routines in Talend.
- Used Talend FTP Components like tFTPGet, tFTPPut, tFTPFileList, tFTPRename, tFTPTruncate, tFTPDelete, tFTPFileExist, tFTPFileProperties and tFTPConnection.

PROCESSOR (TALEND DEVELOPER)   **11/2019 to 11/2022**
  Mphasis | Pune, MH

- Monitoring the daily data load and track the issues or Failures and try to resolve them.
- Resolving issues in daily/weekly load cycle.
- Look the jobs & flow or sequence in which these jobs should run.
- Ensures that all the Jobs are executing properly.
- Checking the count of data.

- Running sub jobs in parallel, used parallelize component and multi thread execution.
- Worked on Performance tuning techniques and error handling techniques.
- Involved in Extraction, Transformation and Loading of data.
- Running sub jobs in parallel, used parallelize component and multi thread execution.
- Worked on performance tunning technique.
- Worked on error handling techniques and tuning the ETL flow for better performane.
- Worked on Full and Incremental Load.

ASSOCIATE TEAM MEMBER   **08/2018 to 10/2019**
Slk global solutions pvt ltd | Pune, MH

- Analyzing several types of loan documents identifying the interest rates and Principle balance and send it to customers on basis of their demand.
- Receiving fund from customers on basis of quote sent and applying it's to customers loan account for foreclose the loan and then send final settlement letters to customer which is automatically by the application.
