Highly skilled Software Developer with 2 years of experience in C#, NET Core, ASP.NET Web API, and SQL. Proven ability to deliver high-quality, scalable solutions on time. Seeking a position to contribute to innovative projects at a leading company.

PROFESSIONAL EXPERIENCE

Jr Software Developer (2 Years)
Sigmasoft Infotech Pvt. Ltd.

01/2023 - 01/04/2024   *PROJECT :TechHub (ASP.NET&CORE .NET)*

Worked with a team to develop and maintain web applications using C#, SQL Server, .NET Core, and Angular for Sigmasoft Internal Project. Implemented RESTful APIs using ASP.NET Web API

Project Highlights

- Implemented RESTful APIs using ASP.NET Web API. Focused on creating efficient and reusable code for various services. Involved in analyzing and debugging code to identify and fix bugs and performance issues. Ensured the codebase remained clean and maintainable.
- Utilized Azure for deploying applications and managing cloud storage. Leveraged Azure's services to enhance the application's performance and scalability.
- Participated in Agile development methodologies, including development and testing phases. Assisted in maintaining a backlog of user stories in Jira. Ensured timely updates and completion of tasks as per the sprint cycle

Jr Software Developer
Sigmasoft Infotech Pvt.Ltd.

05/2023 - 01/04/2024   *PROJECT :Job Portal Sigmasoft*

As part of the Sigmasoft Internal Project, I collaborated with a team to develop a Job Portal, a web application designed to connect job seekers with employers efficiently. This application allows employers to post job openings and job seekers to apply for these opportunities. It includes features for job searching, application tracking, and user management, creating a streamlined process for job recruitment.

Project Highlights:

- 1 Secure Registration and Login: Implemented robust registration and login functionalities, ensuring secure access for employers, job seekers, and admins. Profile Management: Developed comprehensive profile management features, enabling users to update personal details, upload resumes, and manage contact information.
- 2Leveraged for developing the web application and managing database interactions.Utilized for creating responsive and interactive user interfaces.
