Highly motivated, Results-driven, and detail-oriented Data Engineer with 2 years of experience adept in efficiently extracting, transforming, and loading data for various master data objects Adept at building and maintaining data pipelines, ensuring data quality and integrity, and collaborating effectively with cross-functional teams. Possesses strong programming skills in SQL and experience with various ETL tools and databases. Seeking to leverage skills and passion for data integration to contribute to a challenging and innovative environment. Eager to contribute expertise and passion for data-driven solutions to your team.

WORK EXPERIENCE

Infosys Limited, Pune (May 22 – Present)

Senior Systems Engineer

One of the world's leading semiconductor manufacturers.

Served as Master Data Conversion/ETL Data Engineer for a Green field SAP S4HANA implementation project on behalf of Infosys. Project objectives were to convert legacy Oracle EBS ERP to an SAP S4/HANA Cloud (Private edition).

Tools : SAP BODS, iDSS, SAP HANA, SAP GUI, SAP DMC, MS SQL SERVER, Oracle SQL Developer.

SAP Focus Areas:

- ❑ **One End-to-End Implementation Experience:** Successfully executed a complete project lifecycle from initiation to deployment
- ❑ **Document Analysis and Preparation:** "Analysed functional and mapping documents, creating detailed technical mapping documents to guide developers that streamlined development
- ❑ **ETL Development and Data Migration Expertise**: Proficient in ETL development, migration, and complex data transformation logic for Conversion RICEFW. Implemented comprehensive preload and post-load data validation processes.
- ❑ **Project Lifecycle Involvement**: Engaged in all project phases, including requirement gathering, analysis, design, development, Unit Testing, User Acceptance Testing (UAT), System Integration Testing (SIT), and Go-live.
- ❑ **Cutover Activities and Issue Resolution**: Actively participated in cutover activities, mock loads, and Go-live, addressing issues with utmost priority.
- ❑ **Collaborative Team Work**: Collaborated with cross-functional and technical teams to comprehend requirements and deliver objectives.
- ❑ **SAP Master Data Management**: Possesses in-depth knowledge and hands-on experience with SAP master data objects within S2P, O2C, and FI modules.
- ❑ **Data Quality Improvement**: Led workshops with business users to enhance data quality from 80% to approximately 98% pre-Go-live.

- ❑ **Data Profiling and Reporting**: Provided data profiling and quality reports, aiding business users in understanding their existing data landscape.
- ❑ **Data Cleansing Process Design**: Established and designed data cleansing processes in collaboration with business users.
- ❑ **Agile Methodology**: Well-versed in agile practices and methodologies.
- ❑ **Legacy Transfer Migration Cockpit (LTMC)**: Experienced in utilizing LTMC for data migration tasks.
- ❑ **BAPI and XML File-Based Load Programs**: Skilled in working with BAPI and XML file-based load programs for efficient data handling.

SKILLS

- SQL, PLSQL, MySQL
- Data Analytics
- Data Mapping
- Data quality
- Data Modelling
- Databases
- SAP HANA
- SAP ECC
- Extract, Transform, Load (ETL)
- LTMC
- RTR (Record to Report)
- OTC (Order to Cash)
- S2P (Source to Pay)
- P2P(Procure to Pay)

EDUCATION

Savitribai Phule Pune University

Bachelor's Mechanical Engineering

08/2017 to 07/2021

First Class with Distinction

CERTIFICATION

- ❑ SAP Certified Application Associate - Data Integration with SAP Data Services 4.2 (C_DS_42)
- ❑ SAP ECC Application Associate – Procurement with SAP ECC 6.0 (TSCM_52)
- ❑ DP-900: Microsoft Certified: Azure Data Fundamentals
- ❑ DP-203: Data Engineering on Microsoft Azure
- ❑ DP-300: Azure Database Administrator Associate
